INDEX OF SUBJECTS AND AUTHORS

ABRAMS, H. S., AND SIMON, SELIG. An unusual observation following artificial pneumothorax, 788

ABRAMS, IRVING R., AND GREENGARD, JOSEPH. Tuberculous pneumothorax in infancy, 236

Absorption, retention and excretion of calcium, The effect of viosterol on the, 202

Accompanying phrenic evulsion, scaleniotomy, An evaluation of, 176

Acute forms of pulmonary tuberculosis, treatment of, The, 484

—— pulmonary atelectasis following haemoptysis, 198

ADAMS, M. J., SOPER, W. B., AND ALPERT, L. K. The vaccinating property of dissociated heat-killed S tubercle bacilli, 667

Adolescent children, tuberculous lesions found in, The significance of, in a school survey, 827

Advanced pulmonary tuberculosis, tubercle bacilli in the blood in, question of, The, 118

Air emboli in artificial pneumothorax, prevention of, The, 196

—— embolus, 187

ALPERT, L. K., ADAMS, M. J., AND SOPER, W. B. The vaccinating property of dissociated heat-killed S tubercle bacilli, 667

Amazon parrot, Tuberculosis of human origin in an, 273

Anergy, tuberculin, Sarcoid of Boeck (benign miliary lupoid) and, 734

Animal, experimental, pulmonary silicotic nodule in, The development of the, 470

—— passage, effect of, on the virulence of tubercle bacilli, The, 884

Antituberculosis millinery, 453

Apparatus, artificial pneumothorax, simplified, A, 183

—— for intrapleural pneumolysis, technique and, A, 528

Apparatus, oleothorax, An, 442

Area, growth in, of intracutaneous tuberculin reactions, A study of the, 844

ARNOLD, LLOYD. Tuberculosis in girls and young women, 262

ARONSON, JOSEPH D. Further studies on the incidence of tuberculous infection in some rural communities of the South, 617

Artificial larynx in treatment of tuberculous laryngitis, 445

—— pneumothorax, air emboli in, prevention of, The, 196

—— —— apparatus, simplified, A, 183

—— ——, Contralateral haemoptysis in, 785

—— —— in the white and negro races, Comparative results of, 767

—— ——, Ruptured lung during the induction of, 429

—— —— syringe, valveless, A, 185

—— —— technique, new, A, 437

—— ——, unusual observation following, An, 788

Atelectasis in pulmonary tuberculosis, A critique of, 457

—— —— —— ——, importance of, The, 1

——, pulmonary, Acute, following haemoptysis, 198

ATKINSON, KATHLEEN J., AND BROWN, A. LINCOLN. An evaluation of scaleniotomy accompanying phrenic evulsion, 176

Bacilli, tubercle, at incubator temperature, growth of, inhibitory effect of normal blood on, The, 878

——, ——, in sputum, number of, A technique for estimating the, 279

——, ——, —— the blood in advanced pulmonary tuberculosis, question of, The, 118

——, ——, —— —— —— stream of rabbits following subcutaneous and intraperitoneal inoculation, 875

——, ——, lysis of, in vitro, The, 138

Bacilli, tubercle, S, dissociated heat-killed, vaccinating property of, The, 667
——, ——, viability and virulence of old cultures of, The, 856
——, ——, virulence of, effect of animal passage on, The, 884
BARNES, HARRY LEE. The prognosis of noncavernous phthisis, 660
Bilateral phrenic exairesis in pulmonary tuberculosis, 165
Bionomics of families attending a tuberculosis dispensary, The. I. General characteristics, with special reference to housing and economic status, 537
—— —— —— —— —— —— ——, ——. II. Dispensary attendance and diagnosis of the family physician, 573
—— —— —— —— —— —— ——, ——. III. Tuberculosis morbidity and mortality among Italians and Hebrews, 591
BLACK, LOUISA T., GAUSS, HARRY, AND SINGERMAN, I. The differential diagnosis of intestinal tuberculosis, 684
BLACK, WILLIAM C., LEWIS, ROBERT C., DE SAVITSCH, EUGENE C., AND TREVERROW, VIRGINIA E. The effect of viosterol (vitamine D) and tuberculin on the healing of tuberculous lesions in guinea pigs, 699
Blood in advanced pulmonary tuberculosis, tubercle bacilli in the, question of, The, 118
——, normal, inhibitory effect of, on growth of tubercle bacilli at incubator temperature, The, 878
—— stream of rabbits, Tubercle bacilli in the, following subcutaneous and intraperitoneal inoculation, 875
Boeck, Sarcoid of, (benign miliary lupoid) and tuberculin anergy, 734
Bone and joint tuberculosis, Experimental, in rabbits, 331
BREUER, MILES J. Tuberculophobia, 229
BRIDGE, EZRA, AND STOKES, A. M. Dispensary versus school examination in discovering tuberculosis in children, 522
BROCK, BENJAMIN L. Comparative results of artificial pneumothorax in the white and negro races, 767
Bronchiectasis, chronic, The shrunken pulmonary lobe with, 293
BROWN, A. LINCOLN, AND ATKINSON, KATHLEEN J. An evaluation of scaleniotomy accompanying phrenic evulsion, 176
BRUMFIEL, DANIEL M. The heart and tuberculosis, 317
Bulla, emphysematous, large, mistaken for a cavity, A tuberculous lung with, 359

Calcium, absorption, retention and excretion of, The effect of viosterol on the, 202
Canadian school for Indians, pupils of a, Tuberculosis among, 502
Carcinoma of lung, diagnosis of, The, 711
Carrier of tuberculosis, cockroach as a possible, The, 267
Cavitation, tuberculous, old, investigation and operative exploration and treatment of, The, 344
Cavities, tuberculous, treatment of, surgical, The, 411
Cavity, large emphysematous bulla mistaken for, A tuberculous lung with a, 359
CHADWICK, HENRY D., AND JOHNSTON, J. A. A study of childhood tuberculosis in Detroit, 244
——, —— ——., MARKOE, R. C. L., AND THOMAS, JOSEPH T. Collapse therapy of pulmonary tuberculosis in Negroes, 759
Child, school-, The examination of the, for tuberculosis in a rural community, 516
Childhood tuberculosis in Detroit, A study of, 244
Children, adolescent, tuberculous lesions found in, The significance of, in a school survey, 827
——, Tuberculosis in, 251
——, —— ——, discovering, Dispensary versus school examination in, 522
Chronic bronchiectasis, The shrunken pulmonary lobe with, 293
—— tuberculous middle-ear and mastoid disease in the tuberculosis patient, eradication of, The, 447
COBBS, B. W. The prevention of air emboli in artificial pneumothorax, 196
Cockroach as a possible carrier of tuberculosis, The, 267
COHN, MAURICE, AND CORPER, H. J. The viability and virulence of old cultures of tubercle bacilli, 856

Collapse therapy of pulmonary tuberculosis in Negroes, 759, 779
Comparative results of artificial pneumothorax in the white and negro races, 767
Contralateral haemoptysis in artificial pneumothorax, 785
CORPER, H. J. The lysis of tubercle bacilli in vitro, 138
——, ——. ——., AND COHN, MAURICE. The viability and virulence of old cultures of tubercle bacilli, 856
——, ——. ——., —— DAMEROW, A. P. The question of tubercle bacilli in the blood in advanced pulmonary tuberculosis, 118
——, ——. ——., —— VIDAL, C. B. The inhibitory effect of normal blood on the growth of tubercle bacilli of incubator temperature, 878
CORYLLOS, POL. Y. The importance of atelectasis in pulmonary tuberculosis, 1
COURNAND, ANDRE, AND JONES, OSWALD R. The shrunken pulmonary lobe with chronic bronchiectasis, 293
CRIMM, PAUL D., STRAYER, J. W., WATSON, H. L., AND HEIMANN, G. Vitamine therapy in pulmonary tuberculosis. III. The effect of viosterol on the absorption, retention and excretion of calcium, 202
Critique of atelectasis in pulmonary tuberculosis, A, 457
Cultures, old, of tubercle bacilli, viability and virulence of, The, 856
CUTLER, J. W. A technique and apparatus for intrapleural pneumolysis, 528

DAMEROW, A. P., AND CORPER, H. J. The question of tubercle bacilli in the blood in advanced pulmonary tuberculosis, 118
DE SAVITSCH, EUGENE C., TREVORROW, VIRGINIA E., BLACK, WILLIAM C., AND LEWIS, ROBERT C. The effect of viosterol (vitamin D) and tuberculin on the healing of tuberculous lesions in guinea pigs, 699
Detroit, childhood tuberculosis in, A study of, 244
Development of the pulmonary silicotic nodule in the experimental animal, The, 470
Diagnosis, Differential, of intestinal tuberculosis, 684
—— of carcinoma of lung, The, 711
—— —— the family population, Dispensary attendance and. The bionomics of families attending a tuberculosis dispensary, II., 573
Diaphragmatic rises. Secondary, following phrenic neurectomy, 352
Differential diagnosis of intestinal tuberculosis, 684
Discovering tuberculosis in children, Dispensary versus school examination in, 522
Disease, middle-ear and mastoid, chronic tuberculous, in the tuberculosis patient, eradication of, The, 447
Dispensary attendance and diagnosis of the family population. The bionomics of families attending a tuberculosis dispensary, II., 573
——, tuberculosis, families attending a, bionomics of, The. I. General characteristics, with special reference to housing and economic status, 537
——, ——, —— —— ——, —— ——, ——. II. Dispensary attendance and diagnosis of the family population, 573
——, ——, —— —— ——, —— ——, ——. III. Tuberculosis morbidity and mortality among Italians and Hebrews, 591
—— versus school examination in discovering tuberculosis in children, 522
Dissociated heat-killed S tubercle bacilli, vaccinating property of, The, 667
DUNCAN, G. R., FENGER, E. P. K., AND GREENE, A. B. The treatment of pulmonary tuberculosis by hyperpyrexia, 752

Economic status, General characteristics, with special reference. The bionomics of families attending a tuberculosis dispensary, I., 537
Effect of animal passage on the virulence of tubercle bacilli, The, 884
—— —— viosterol (vitamine D) and tuberculin on the healing of tuberculous lesions in guinea pigs, The, 699
Effects of virulence of microörganism on the histopathology of experimental pulmonary tuberculosis, The, 62

EHRENBURG, G. E. A critique of atelectasis in pulmonary tuberculosis, 457
Emboli, air, in artificial pneumothorax, prevention of, The, 196
Embolus, Air, 187
Emphysematous bulla, large, mistaken for a cavity, A tuberculous lung with, 359
Enteritis, tuberculous, paper films in the study of, The use of, 289
Eradication of chronic tuberculous middle-ear and mastoid disease in the tuberculosis patient, The, 447
Estimating the number of tubercle bacilli in sputum, A technique for, 279
Evaluation of scaleniotomy accompanying phrenic evulsion, An, 176
Evulsion, phrenic, scaleniotomy accompanying, An evaluation of, 176
Exairesis, phrenic, Bilateral in pulmonary tuberculosis, 165
Examination, Dispensary versus school, in discovering tuberculosis in children, 522
—— of the School-child for tuberculosis in a rural community, The, 516
Excretion of calcium, The effect of viosterol on the absorption, retention and, 202
Experimental animal, pulmonary silicotic nodule in, The development of the, 470
—— bone and joint tuberculosis in rabbits, 331
—— pulmonary tuberculosis, histopathology of, effects of virulence of microorganism on, The, 62
—— study, mechanical thorax for, A, 791
Exploration, operative, and treatment of old tuberculous cavitation, The investigation and, 344

Families attending a tuberculosis dispensary, bionomics of, The. I. General characteristics, with special reference to housing and economic status, 537
—— —— —— —— ——, —— ——, ——. II. Dispensary attendance and diagnosis of the family population, 573
—— —— —— —— ——, —— ——, ——. III. Tuberculous morbidity and mortality among Italians and Hebrews, 591
—— of a group of sanatorium patients, tuberculosis in the, incidence of, The, 637
Family population, diagnosis of the, Dispensary attendance and. The bionomics of families attending a tuberculosis dispensary, II., 573
FENGER, E. P. K., GREENE, A. B., AND DUNCAN, G. R. The treatment of pulmonary tuberculosis by hyperpyrexia, 752
Films, paper, in the study of tuberculous enteritis, The use of, 289
First-infection and reinfection types of tuberculosis, 793
FISCHEL, KARL. The surgical treatment of tuberculous cavities, 411
Following haemoptysis, Acute pulmonary atelectasis, 198
—— phrenic neurectomy, Secondary diaphragmatic rises, 352
—— subcutaneous and intraperitoneal inoculation, Tubercle bacilli in blood-stream of rabbits, 875

GAINES, ARTHUR R., AND KELLER, PAUL E. Collapse therapy of pulmonary tuberculosis in Negroes, 779
GAUSS, HARRY, SINGERMAN, I., AND BLACK, LOUISA T. The differential diagnosis of intestinal tuberculosis, 684
Girls and young women, Tuberculosis in, 262
Glen Lake Sanatorium, A statistical study of patients readmitted to, 1916–1931, 838
GREENE, A. B., DUNCAN, G. R., AND FENGER, E. P. K. The treatment of pulmonary tuberculosis by hyperpyrexia, 752
GREENGARD, JOSEPH, AND ABRAMS, IRVING R. Tuberculous pneumothorax in infancy, 236
GRIMES, ELI. Studies in the natural history of phthisis, 80
Growth in area of intracutaneous tuberculin reactions, A study of the, 844
—— of tubercle bacilli at incubator temperature, inhibitory effect of normal blood on, The, 878
Guinea pigs, healing of tuberculous lesions in, The effect of viosterol (vitamine D) and tuberculin on the, 699

Haemoptysis, Acute pulmonary atelectasis following, 198
——, Contralateral, in artificial pneumothorax, 785
HALFORD, F. J. Tuberculosis in the Hawaiian, 370
HAMMAN, LOUIS. The diagnosis of carcinoma of the lung, 711
HASTINGS, D. R. The examination of the school-child for tuberculosis in a rural community, 516
Hawaiian, Tuberculosis in the, 370
HAYWOOD, ELOISE, MORRISS, W. H., AND WILSON, GEORGE C. The incidence of tuberculosis in the families of a group of sanatorium patients, 637
HEAD, JEROME. The artificial larynx in the treatment of tuberculous laryngitis, 445
Healing of tuberculous lesions in guinea pigs, The effect of viosterol (vitamine D) and tuberculin on the, 699
Heart and tuberculosis, The, 317
Heat-killed S tubercle bacilli, dissociated, vaccinating property of, The, 667
Hebrews, Tuberculosis morbidity and mortality among Italians and. The bionomics of families attending a tuberculosis dispensary, III., 591
HEIMANN, G., CRIMM, PAUL D., STRAYER, J. W., AND WATSON, H. L. Vitamine therapy in pulmonary tuberculosis. III. The effect of viosterol on the absorption, retention and excretion of calcium, 202
HETHERINGTON, H. W. The significance of tuberculous lesions found in adolescent children in a school survey, 827
HIGGINS, GEORGE M., AND LEMON, WILLIS S. The development of the pulmonary silicotic nodule in the experimental animal, 470
HINSHAW, W. R. Tuberculosis of human origin in an Amazon parrot, 273
Histopathology of experimental pulmonary tuberculosis, effects of virulence of microörganism on, The, 62
History, natural, of phthisis, Studies in the, 80
Housing and economic status, General characteristics, with special reference to. The bionomics of families attending a tuberculosis dispensary, I., 537
HUGHES, JOSEPH. A technique for estimating the number of tubercle bacilli in sputum, 279
Human origin, Tuberculosis of, in an Amazon parrot, 273
Hyperpyrexia, treatment of pulmonary tuberculosis by, The, 752

Importance of atelectasis in pulmonary tuberculosis, 1
Incidence of tuberculosis in the families of a group of sanatorium patients, The, 637
—— —— tuberculous infection in some rural communities of the South, Further studies on the, 617
Incubator temperature, inhibitory effect of normal blood on growth of tubercle bacilli at, The, 878
Indians, school for, Canadian, pupils of a, Tuberculosis among, 502
Infancy, pneumothorax, Tuberculous, in, 236
Infants and primitive races, Tuberculosis in, 381
Infection, tuberculous, in some rural communities of the South, incidence of, Further studies on the, 617
Inhibitory effect of normal blood on the growth of tubercle bacilli at incubator temperature, 878
Inoculation, subcutaneous and intraperitoneal, Tubercle bacilli in blood-stream of rabbits following, 875
Inoperable and postoperative urogenital tuberculosis, treatment of, The, 746
Intestinal tuberculosis, diagnosis of, Differential, 684
Intracutaneous tuberculin reactions, growth in area of, A study of the, 844
Intraperitoneal inoculation, Tubercle bacilli in blood-stream of rabbits following subcutaneous and, 875
Intrapleural pneumolysis, technique and apparatus for, A, 528
Investigation and operative exploration and treatment of old tuberculous cavitation, The, 344
Italians and Hebrews, Tuberculosis morbidity and mortality among. The bionomics of families attending a tuberculosis dispensary, III., 591

JOHNSON, WATHENA MYERS, AND MYERS, J. ARTHUR. Tuberculosis in infants and primitive races, 381
JOHNSTON, J. A., AND CHADWICK, HENRY D. A study of childhood tuberculosis in Detroit, 244
Joint, bone and, tuberculosis, Experimental, in rabbits, 331
JONES, OSWALD R., AND COURNAND, ANDRE. The shrunken pulmonary lobe with pulmonary bronchiectasis, 293
JORESS, MARK H. An oleothorax apparatus, 442
